### ***IMPORTANT UPDATE Johnson & Johnson Talcum Powder***

On August 1, 2023, I emailed you regarding our success in having Johnson & Johnson's second bad-faith bankruptcy deemed fraudulent. Instead of acting responsibly to fairly compensate the tens of thousands of women and their families who continue to suffer from its misdeeds, Johnson & Johnson's lawyers now threaten yet a third bankruptcy.

Rather than accept responsibility, Johnson & Johnson chooses to pay its lawyers over two billion dollars – erasing your constitutional rights to a jury and trying to force tiny bankruptcy payments on our ovarian cancer clients. We expect a decision in the coming months; we will update you, our valued client, as news unfolds.

#### **Our commitment to you remains unwavering:**

*“We will be opposing J & J’s attempt to continue delaying compensation to the mothers, wives, and daughters whose trust in Johnson & Johnson’s reputation and claims of purity were misguided. Our battle along with our clients against corporate greed will be fought as hard as they have battled to survive this terrible disease.”*

LA Daily Journal; Oct. 2021.**

Our **Goldstein Greco** team stands steadfast and fully committed to obtaining the best result for you and your family. As always, we are here for your questions.

Very truly yours;
