IMPORTANT UPDATE Johnson & Johnson Talcum Powder

Per our last update, Johnson & Johnson is preparing to file its 3rd fraudulent bankruptcy. We have reviewed J & J's proposal; it is not in your best interest. **We are voting "No".**

Among the many factors that we believe weigh strongly against J & J's proposal:

- All lawsuits, trials, and claims including yours would end forever. Any potential award would be fixed by a bankruptcy "grid" with no say in agreeing, rejecting, or appealing.
- The proposed fixed amount is not sufficient to compensate even current cases. A large percent would be used for new cases *over the next 25 years*.
- Almost 50% of the proposed fixed amount would not be used to compensate ovarian cancer cases but would be used for many thousands of current and future non-ovarian cancer cases *over the next 25 years*.
- There would be no payments at all *for years* and would extend over *25 years*.
- Their "point" system would not consider surgeries, chemotherapies, complications, income loss, or medical expenses. Reductions would be 'discretionary'.

Our **Goldsten Greco** team is committed to providing you with relentless advocacy and representation. **We intend to vote "NO" to J & J's proposal on your behalf.**

Please feel free to call us with any questions regarding your case and J & J's proposal.

We appreciate your confidence and will continue to keep you informed and updated as we move forward together. ***Finally, please send any address/phone/email changes to vm@goldsteingreco.com.***

Very truly yours;

Brian A. Goldstein, M.D., J.D.*
